

## VOLUNTARY ACTIVITIES PARTICIPATION FORM ACKNOWLEDGEMENT AND ASSUMPTION OF POTENTIAL RISK

We the parent(s)/guardian(s) and student athlete are aware that preparation for participation in interscholastic athletics and intramurals involves many risks of serious and permanent injury to the student athlete. We understand and acknowledge that by their very nature, these activities pose potential dangers to individuals who participate in such programs.

I understand and acknowledge that participation in these activities is completely voluntary and as such is not required by the District. I understand and acknowledge that in order to participate in these activities. I agree to assume liability and responsibility for any and all potential risks which may be associated with participation in such activities. I understand, acknowledge and agree that the District, its employees, officers, agents or volunteers shall not be liable for any injury/illness suffered by me which is incident to and/or associated in preparing for and/or participating in this activity.

#### **MATURITY STATEMENT:**

Statistics indicate that there is an increase in the number of sport injuries with students who are not of a comparable maturity level as other participants. If you feel that your student might be subject to potential injury because of his/her state of development, please discuss this with them.

#### **OFF-CAMPUS:**

Home Telephone	Business Telephone	Parent/Guardian's Signature
Emergency Telephone	Business Telephone	Parent/Guardian's Signature
Date		Student Athlete's Signature

In addition to extracurricular competition, there are occasions where practice sessions for various programs are conducted off campus. This may consist of conditioning drills conducted off campus or involve students transporting themselves to nearby facilities.

We parent(s)/guardian(s) and student athlete have completely read, fully understand and voluntarily accept and agree to all of the above terms and conditions.

A signed voluntary activities participation form must be on file with the District before a student will be allowed to participate in the above extracurricular/curricular activities. THIS FORM MUST BE IN THE POSSESSION OF THE COACH ON ALL OUT OF TOWN TRIPS, AND KEPT ON FILE.

## CONTRACT HEALTH SERVICE INFORMATION FOR NATIVE AMERICAN STUDENTS

The Contract Health Service eligibility factors are set forth in Federal Regulations 42 C.F.R. 36, the Indian Health Manual, Part 2 Chapter 3 and the Navajo Area C.H.S. Medical Priority Policy. Copies are available from the Contract Health Service Specialist at any Indian Health Service Unit Hospital or Clinic.

The following information must be as complete as possible:

#### PLEASE PRINT OR TYPE ONLY!

Athlete:		Date of Birth:	IHS#	
SS#	Sex:	Tribe:	Census#	
Mailing Address:				
Location of Home:				
Name & Address of P	arents' Employer	or Income Source:		

REMEMBER: Permission must be granted from the local Indian Health Service Director on duty within 72 hours, other wise, payment for services rendered becomes the responsibility of the athlete and/or parents.

#### **NEW MEXICO ACTIVITIES ASSOCIATION**

6600 PALOMAS AVE. NE ALBUQUERQUE, NM 87109 PHONE: 505-923-3110 FAX: 505-923-3114

#### **CONSENT TO TREAT FORM**

PLEASE PRINT LEGIBLY OR TYPE

Parental consent for minor athletes is generally required for sports medicine services, defined as services including, but not limited to, evaluation, diagnosis, first aid and emergency care, stabilization, treatment, rehabilitation and referral of injuries and illnesses, along with decisions on return to play after injury or illness. Occasionally, those minor athletes require sports medicine services before, during and after their participation in sport-related activities, and under circumstances in which a parent or legal guardian is not immediately available to provide consent pertaining to the specific condition affecting the athlete. In such instances, it may be imperative to the health and safety of those athletes that sports medicine services necessary to prevent harm be provided immediately, and not be withheld or delayed because of problems obtaining consent of a parent/guardian.

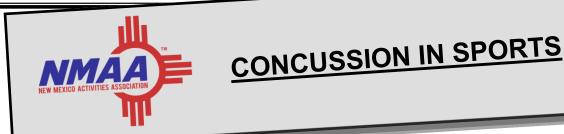

Accordingly, as a member of the New Mexico Activities Association (NMAA), (name of school or district) requires as a pre-condition of participation in interscholastic activities, that a parent/guardian provide written consent to the rendering of necessary sports medicine services to their minor athlete by a qualified medical provider (QMP) employed or otherwise designated by the school/district/NMAA, to the extent the QMP deems necessary to prevent harm to the student/athlete. It is understood that a QMP may be an athletic trainer, medical/osteopathic physician, physician assistant or nurse practitioner licensed by the state of New Mexico (or the state in which the student/athlete is located at the time the injury/illness occurs), and who is acting in accordance with the scope of practice under their designated state license and any other requirement imposed by New Mexico law. In emergency situations, the QMP may also be a certified paramedic or emergency medical technician, but only for the purpose of providing emergency care and transport as designated by state regulation and standing protocols, and not for the purpose of making decisions about return to play.

# "I, \_\_\_\_\_\_ the undersigned, am the parent/legal guardian of, \_\_\_\_\_\_, a minor and student-athlete at \_\_\_\_\_\_ (name of school or district) who intends to participate in interscholastic sports and/or activities.

I understand that the school/district/NMAA may employ or designate QMP's (as defined above) to provide sports medicine services (as also defined above) to the school's interscholastic athletes before, during or after sport-related activities, and that on certain occasions there are sport-related activities conducted away from the school/district facilities during which other QMP's are responsible for providing such sports medicine services. I hereby give consent to any such QMP to provide any such sports medicine services to the above-named minor. The QMP may make decisions on return to play in accordance with the defined scope of practice under the designated state license, except as otherwise limited by New Mexico law. I also understand that documentation pertaining to any sports medicine services provided to the above-named minor, may be maintained by the QMP. I hereby authorize the QMP who provides such services to the above-named minor to disclose such information about the athlete's injury/illness, assessment, condition, treatment, rehabilitation and return to play status to those who, in the professional judgment of the QMP, are required to have such information in order to assure optimum treatment for and recovery from the injury/illness, and to protect the health and safety of the minor. I understand such disclosures may be made to above-named minor's coaches, athletic director, school nurse, any classroom teacher required to provide academic accommodation to assure the student-athlete's recovery and safe return to activity, and any treating QMP.

If the parent believes that the minor is in need of further treatment or rehabilitation services for the injury/illness, the minor may be treated by the physician or provider of his/her choice. I understand, however, that all decisions regarding same day return to activity following injury/illness shall be made by the QMP employed/designated by the school/district/NMAA."

## A Fact Sheet for Athletes and Parents

#### WHAT IS A CONCUSSION?

A concussion is an injury that changes how the cells in the brain normally work. A concussion is caused by a blow to the head or body that causes the brain to move rapidly inside the skull. Even a "ding," "getting your bell rung," or what seems to be a mild bump or blow to the head can be serious. Concussions can also result from a fall or from players colliding with each other or with obstacles, such as a goalpost.

#### WHAT ARE THE SIGNS AND SYMPTOMS OF A CONCUSSION?

#### Observed by the Athlete

#### Headache or "pressure" in head

- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Bothered by light
- Bothered by noise
- Feeling sluggish, hazy, foggy, or groggy
- Difficulty paying attention
- Memory problems
- Confusion
- Does not "feel right"

#### Observed by the Parent / Guardian

- Is confused about assignment or position
- Forgets an instruction
- Is unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Loses consciousness (even briefly)
- Shows behavior or personality changes
- · Can't recall events after hit or fall
- Appears dazed or stunned

#### WHAT TO DO IF SIGNS/SYMPTOMS OF A CONCUSSION ARE

#### Athlete

- TELL YOUR COACH IMMEDIATELY!
- Inform Parents
- Seek Medical Attention
- Give Yourself Time to Recover

#### Parent / Guardian

- Seek Medical Attention
- Keep Your Child Out of Play
- Discuss Plan to Return with the Coach

#### It's better to miss one game than the whole season.

Give yourself time to get better. If you have had a concussion, your brain needs time to heal. While your brain is still healing, you are much more likely to have a second concussion. Second or later concussions can cause damage to your brain. It is important to rest until you get approval from a doctor or health care professional to return to play.

#### **RETURN TO PLAY GUIDELINES UNDER SB38**

- 1. Remove immediately from activity when signs/symptoms are present.
- 2. Must not return to full activity prior to a minimum of 240 hours (10 days).
- 3. Release from medical professional required for return.
- 4. Follow school district's return to play guidelines.
- 5. Coaches continue to monitor for signs/symptoms once athletes return to activity.

Students need cognitive rest from the classroom, texting, cell phones, etc.

#### **SIGNATURES**

By signing below, parent/guardian and athlete acknowledge the following:

- Both have received and reviewed the attached NMAA's Concussion in Sports Fact Sheet for Athletes and Parents.
- Both understand the risks of brain injuries associated with participation in school athletic activity, and are aware of the State of the New Mexico's Senate Bill 38; Concussion Law.
- Athlete has received brain injury training pursuant to Senate Bill 38.
